

DANVILLE, KY.:
FRIDAY MORNING, OCTOBER 27, 1851.

For President in 1852,
MILLARD FILLMORE,
OF NEW YORK.

For Vice President,
JOHN J. CRITTENDEN,
OF KENTUCKY.

NOTICE.—As we have before stated, we want those who have promised to bring us wood, to do so immediately, and all who are in any wise indebted to us will please either come forward and settle, or remit to us by mail. All know very near the amount they owe us, as the most of them have been furnished with their accounts again and again, and with some of them we are actually getting somewhat out of patience, and will have to resort to some more summary measures, unless they pay up in a very short time. We shall mark this notice to some of our delinquent patrons, and annex the amount due us, and we hope they will at once square up and begin anew. We owe money, and must have it to enable us to pay, and we have no other resource than to call upon those who are indebted to us. Come, friends, assist us this once, and if you cannot pay us all, send us a part of it. "Every little helps," in this, as well as in all other cases. Those who are convenient and wish to do so, can pay us in Wood, Corn, Flour, Meal, Pork, Beef, &c. &c.

The **COLUMBIANS** will give their first concert in our city on Wednesday evening next. We received their advertisement just as we were putting our paper to press, and we can only advise everybody to hear them. Such a rich musical treat is seldom offered to any community. The **Statesman** speaking of their concert in Lexington, says: "To say the least, we have never heard their superiors in this city, and we think scarcely their equals. There is a mellifluous flow and richness in their harmony truly delightful to the musical ear."

MUSIC SCHOOL.—We invite attention to the advertisement of Mr. CHINSKY. His qualifications and success as a teacher of music, are too well known in this community to need any remark from us.

We will keep our readers fully advised of the proceedings of the Legislature at its approaching session. We will have a regular correspondent at Frankfort, and in addition to this, will give each day's proceedings in a condensed but satisfactory form. Such persons as desire it, can have our paper during the session for 50 cents.

—The "drag" Sweet Potatoes have come at last, having been presented to us with due ceremony on Thursday last, by Mr. FRED WINGATE, of this county. They are, (or rather were,) emphatically the largest of the season, and we take the occasion to tender to Mr. Wingate our thanks for his substantial and acceptable present.

—If we were awarding premiums these hard times, we should certainly give one to Mr. ISOR VANDERKAM for those "mammoth" Turnips he sent us on Tuesday last. They are "smashers," sure, and will, on an average, measure about 25 inches in circumference.

HOMICIDE.—On Sunday evening last, an affray occurred in this place between two slaves, Joseph, belonging to Mr. Winfield Kenley, and Lewis, who belongs to Mr. Wm. Ball, in which the former was stabbed by the latter so severely as to cause his death almost instantly. Lewis was arrested, and on Monday was tried before an examining court and acquitted.

—At a meeting of the Board of Trustees, held on Monday last, Mr. James Taylor was elected Night Watch in place of Mr. A. Harness, resigned.

MR. CLAY'S LETTER.—We give up a considerable portion of our paper to-day to the publication of the great Union Letter recently written by Mr. Clay to a committee of gentlemen in New York. It is wholly unnecessary for us to ask that such an able and important document on such an interesting subject, and from such a high and respected source should have a careful reading.

But little news this week, Judge Sharkey of Mississippi has been appointed Consul to Havana, and our citizens cannot be too careful with fire; in addition to this, we understand that the great number of marriages will probably effect the price of lumber—we don't know exactly how this can be, but such of our readers as are curious on the subject can be satisfied by calling on the cabinet-makers.

We are gratified to state that Prof. G. C. SHAEFFER, of this place, a gentleman in every respect eminently qualified for the post, has been appointed Engineer of the Lexington and Danville Railroad. The offices of the Company are now all filled, as follows: James Barbour, President; T. Barbee, Jno. Barkley, J. T. Boyle, John McMurry, P. E. Yeiser, and H. C. Pindell, Directors; Clifton Rodes, Treasurer; and G. C. Shaefter, Engineer.

—An adjourned Railroad meeting of the citizens of Mercer, Shelby, and Anderson, was held at Lawrenceburg on the 12th inst. The principal action taken by the meeting was to appoint a committee to procure from the Legislature a charter for a railroad from Harrodsburg to Louisville, through the counties of Mercer, Anderson, Shelby, and Jefferson; and that they have a clause inserted in said charter authorizing the vote of the people of said counties to be taken in relation to the subscription of stock.

Another meeting, composed of delegates from Mercer and Franklin counties, and a large number of the citizens of Anderson, was held at Lawrenceburg on Monday last. This meeting decided in favor of the route from Harrodsburg to Frankfort, and recommended that on the first Tuesday in December, the several counties take the vote on propositions to subscribe the following sums: Mercer \$200,000, Anderson \$50,000, and Franklin \$200,000.

LENGTH OF RAILROADS.—The total number of miles of railway now in operation is 25,000, of which there are in the United States 10,200 miles; in Cuba 300 miles; in Great Britain 6,500 miles; in Belgium 560 miles; in France 1,800; in Spain 60, &c. Comparing these numbers with the population, there are for each inhabitant in the United States 21 feet of railroad, and in Cuba 12 feet; in Great Britain 12 feet; in Belgium 4 feet; in France 3 feet; in Spain 3 inches.

ANOTHER OUTRAGE.—On Sunday evening last another attempt was made to burn the office of the Maysville Post Boy. The fire was kindled in one of the rooms, and the building was considerably damaged before it was extinguished. The printing materials were nearly all saved. This is, we believe, the fifth attempt that has been made to destroy the Post Boy establishment, and still the scoundrel who perpetrates these numerous outrages remains unknown. The Post seems to think that the guilty person is some one employed in the Post Boy office.

GLEASON'S PICTORIAL DRAWING-ROOM COMPANION is decidedly the handsomest paper we have ever seen. It is published weekly, each number containing sixteen large pages, and illustrated with numerous superior engravings of such a character as to be interesting to every body. Its columns are well stored with original tales, sketches and poems, together with the cream of domestic and foreign news—the whole well spiced with wit and humor. Altogether, it is a paper entirely original in its design, and the proprietor has succeeded in making it the most attractive ever published in this country.

TERMS.—Single copies per annum, \$3; two copies \$5; four copies \$9; eight copies \$16—in all cases to be paid in advance. Address F. Gleason, Boston, Mass.

THE "WALKING MAN."—A despatch from St. Louis, under date of the 27th inst., says: "Elworthy, the pedestrian, completed his feat of walking 1,000 miles in 1,000 successive hours, at 5 o'clock yesterday afternoon, in the presence of an immense crowd. He expressed a willingness to continue 500 miles more."

—A Washington despatch dated the 28th inst., says: "The Intelligence of this morning publishes a full list of award of premiums made at the late World's Fair in London, to American exhibitors to the number of 195, besides about 50 who are mentioned honorably."

—In Michigan, the Detroit advertiser says that four out of six of the delegates to the Whig National convention are old-fashioned Clay men, and will vote for him through thick and thin, if he shall be in the field.

—The Federal (Ga.) Union, a Loco-fuco ultra Southern paper, says that Mr. Fillmore is the first choice of the Union party of Georgia for the next President.

—Several shipwrecks have recently occurred on the lakes, and the loss of life has been very great.

—The annual State Convention of the Christian Church is now in session at Lexington. Elder Alexander Campbell is in attendance.

—The rope and bagging factory of Mr. Robert B. Hamilton, on Broadway in Lexington was partially destroyed by fire on Tuesday evening last.

MR. CLAY.—The Lexington Observer and Reporter says Mr. Clay is at present on a visit to Louisville, having left Ashland on Monday last. His health has decidedly improved within the last few weeks.

CLOSE OF THE WORLD'S FAIR.—The steamer Pacific arrived at New York on the 27th inst., bringing Liverpool advices to the 15th. For the last few days previous to her sailing, the leading event was the final closing of the great exhibition, which took place on the 11th.—Much less form and even order was observed than might have been expected. The building was immensely crowded, and the closing was rather tumultuous, distinguished by partial attempts to get cheers for the Queen and Prince Albert, and to perform "God save the Queen" in chorus. The building was opened to exhibitors on the 13th and 14th. The awards of prizes were to be on the 15th. The latter day would, in fact, witness the actual closing of the exhibition, in presence of the Royal Commissioners and Prince Consort, and very probably the Queen herself, although not in State.—A national anthem would complete the ceremonial, a prayer of thanksgiving being previously offered by the Bishop of London.

—The Crystal Palace, in London, has been ordered to be taken down, and its removal is no doubt now going forward. The chief reason seems that the funds for keeping it up were not forthcoming. According to the times, it will probably be set up again at Battersea for a winter garden.

—We learn from the Springfield Mercury that a petition will be presented to the Legislature, praying for the removal of the county seat of Washington from Springfield to Paoli.

STEAMBOAT ACCIDENT.—We learn from the Louisville Courier of the 27th, that the steamer Summit, from Tennessee river, collapsed a fire at the mouth of Salt river, Saturday night, and badly scalded three of her crew, including the watchman, and a deck passenger, who got on the boat at Evansville. None of them are thought to be dangerously hurt.

Gov. Powell has remitted a fine of one James Howell, of Louisville, which was imposed upon him for striking a respectable woman.—*Tribune.*

We presume the editor knew this paragraph to be false when he penned it. The whole case has been stated in several papers and he doubtless has read it. Some prefer a lie to the truth when speaking of a political opponent—so of the *Tribune*.—*Low Democrat.*

The self-consequential editor of the *Democrat* does us injustice from the beginning to the ending of his paragraph. We did not, nor do we yet know our article in relation to Howell to be false, and for the editor's accusation on this score, we return him the lie with interest.—Again, we have never seen a statement of the case in question, and as for the closing sentence of the *Democrat's* very gentlemanly paragraph, we refer him to a passage of scripture which speaks of the "snare and beam," and respectfully urge him to draw a useful lesson therefrom. We do not mean injustice willfully, and if we have wronged either Powell or his friend Howell, we will cheerfully retract, when we are shown in what particular we have erred.

In point of population, Kentucky, is the sixth State in the Union, and Louisville, the eleventh city.

SPAIN—CUBAN PRISONERS.—The last arrival from Europe brings news that the frigate *Guatemala*, from Havana, had arrived at Vigo, with 106 American prisoners, belonging to the Lopez expedition. The *Venus*, also, arrived with six more, and the *Isabella Catholica* with four others.

The widow of Gen. Enna, and Mr. Laborde, late Spanish Consul at New Orleans, had also arrived at Vigo.

The Queen of Spain had summoned the Cortez for prompt assembly.

THANKSGIVING.—The Boston Post, in announcing Thursday, November 27, as Thanksgiving day in that State, says that there is an understanding amongst all the Governors in the Union to agree in appointing that day for the purpose.

The Havana Prisoners.—A friend at Havana communicates to the Washington Republic some minutes of an interview with the Captain General and the American prisoners. He says that the violence of the New Orleans mob towards the Spanish Consul at that city, was explained to his entire satisfaction; and he expressed his intention to recommend to his own government the release of the captives immediately on their arrival.—He spoke in just terms of the President and government of the United States, and took occasion to say that they had done every thing in their power to prevent an invasion.

THE LARGEST PILE OF SPECIE IN THE WORLD.—According to a recent return of the Bank of France, the specie on hand amounted to 607,000,000 francs or about \$115,000,000. This, we believe, is the largest amount of specie ever collected together. The Bank of England has not had at any time over \$100,000,000.

Capt. McCollough, so distinguished as a leader of the Texans in the Mexican war, has been elected Sheriff in Sacramento, California, and Jack Hays, the Indian fighter, has been re-elected to the sheriffship in San Francisco.

—We cordially and fully approve of the object of the following circular, and, in the words of the Commonwealth, if the Legislature refuses to make the desired appropriation, we will cheerfully furnish our paper gratis, if the other publishers will do likewise:

FRANKFORT, KENTUCKY, }
October 27, 1851.

To the Editors of Newspapers in Ky:
GENTLEMEN: I shall endeavor this winter to procure an appropriation, by the Legislature, to pay for each newspaper published in the State, political or otherwise, which I desire to file and preserve in the State Library. Upon a moment's reflection I doubt not you will see that this record will furnish to the country the very best history of the age. If you approve of the project you will please send me your paper, and give to the country, at your earliest convenience, a favorable notice of the suggestion.

Yours, respectfully,
BEN SELBY,
State Librarian.

N. B. The entire cost to the State will not exceed \$180, postage and all.

ANNEXATION OF IRELAND.—The *World*, of Dublin, thinks that if Ireland were annexed to the United States, she would not remain as she is, the Lazarus of nations. Her "pauper sores" would be healed at once, and her people would not be obliged to fly from her generous soil. The *World* also thinks that the annexation cry may yet be raised.

—A despatch from Washington says: There is much interest manifested in diplomatic circles relative to the expected arrival of a special Minister from Spain, to demand satisfaction of the U. S. Government, for the loss to Spain and Cuba, from the late invasion of Cuba.

—Gov. Hunt, of New York, has appointed Thursday, the 27th of November, as a day of prayer, thanksgiving and praise.

Gov. Wright, of Indiana, has also issued a proclamation appointing the same day for the same purpose.

—The *Charleston Mercury* deprecates the result of the election in that State, and says:

We profoundly regret the result, being convinced that Secession would be as simple and peaceful a measure as any ordinary act of the Legislature, and that South Carolina, an independent State, would have prospered far beyond anything heretofore enjoyed, and a respectability that no slaveholding State can hope to attain in the Union.

LOUISVILLE MARKET, OCT. 28.—Market quiet and inactive. Sales of Flour at \$3.25, \$3.30 and \$3.50. Wheat 57¢ 60¢ & bushel. Rio Coffee 9¢ 10¢. Sales of New Orleans Sugar at 61¢ 62¢. Sales of 75 lbs Green Apples at 8¢ 10¢ & bushel. Haggling and Rope 12¢ and 13¢. Bacon commands 9¢ for shoulders, 11¢ 11½¢ for clear sides, and 10¢ 10½¢ for common hogged hams. Hogs.—The Courier of Tuesday says: No arrivals here yet, though the weather is favorable for packing. We hear of a sale of 3,000 hogs 100 miles in the interior of Indiana at \$3.15 gross. The hogs are to be packed in this city.

THE HOG MARKET.—We find the following items in the Louisville papers of the 25th:

Hogs.—We hear of no contracts. The market, it is now thought, will open at about \$3.25. Buyers would probably be willing to pay this price for early delivery, but sellers generally hold at higher figures. The opinion among operators now is that \$3.25 will about the prevailing rate of the season.—*Journal.*

—Hog slaughtering has already commenced at Cincinnati. Our packers are ready to commence, but the weather is not cold enough to permit yet. A good number of hogs are on the road to this market, and 6,000 head from Lincoln county, originally destined for the South, have been diverted to this point, and sold at \$1.50 and \$1.75 net.—*Courier.*

The President has issued his proclamation warning all citizens against invading Mexico. He declares such movements calculated to degrade the country in the eyes of the civilized world. He cautions all, if arrested in the Mexican territory, they will be liable to trial and punishment under the Mexican laws and forfeit the right and claim for protection from the United States. He urges a discontinuance of these movements by the people, and instructs the United States officers to be rigid and prevent all military invasions.

The proclamation was issued on information that a company from Texas had organized and invaded the frontier.

—The Philadelphia North American, in speaking of Mr. Clay's letter, says: "But what has most gratified us in this able and instructive paper is the originality, power, and force of illustration with which Mr. Clay has utterly demolished the pretended right of peaceful secession, and scattered to the winds the metaphysical theories with which its advocates have attempted to mystify the public mind. This subject has, in our judgment, never before been discussed, analyzed, and dissected with so much clear comprehensiveness, so much directness of reason, and such overwhelming conviction by any statesman, not excepting Mr. Clay himself, who, on several great occasions, made it the topic of special consideration."

An exchange says: "A single prison in Paris contains nine Editors, for publishing their thoughts upon the conduct of their government! God! what a free country!"

SARTAIN'S MAGAZINE for November is "on hand," embellished as usual in the most elegant manner. The reading matter is also of the most original and attractive character, and we cheerfully bear testimony that in every respect the number before us fully sustains the high reputation of the magazine.

—The Kentucky Legislature convenes at Frankfort on Monday next.—Unless there is considerable difficulty in effecting an organization, we suppose we will be enabled in our next paper to place before our readers the first annual message of Gov. Powell.

THE ANNIHILATOR.—We clip the following from the New York *Democrat*. It looks like putting an "extinguisher" on "the great discovery of the age":

FIRE ANNIHILATOR ON FIRE!—We learn that the building at the Novelty Works, where large numbers of the so-called "Fire Annihilators" are in progress of construction, took fire on Thursday afternoon, and in spite of all the "annihilating" gas contained in the composition of the "bricks"—the efforts of the workmen, and full streams from the delivery pipes of several "Fire Annihilator Cans," together with the exertions of the Fire Department, the building and contents were nearly destroyed.

—Extract of a letter from Genoa, in the Newark Advertiser, that there may be greater delay, than has been supposed, in the arrival of Kossuth in this country.

GENOA, Sept. 28, 1851.
The steamer *Mississippi* left Genoa on Wednesday, after being detained four days to take in coal and other stores, for Gibraltar, where Kossuth and his companions will probably disembark. It is the purpose of the Hungarian leader to visit England, and to deliver his visit to the United States. He cherishes a belief that he is the appointed instrument for effecting a general reformation in Europe, and to that end he wishes to confer with his confederates in London. His wife and three boys are with him, and the latter are very much admired. Kossuth has a fine person, and imposing address, and is a man of various accomplishments. As might be supposed, he is an enthusiast in the fullest sense of the word, and possesses some remarkable popular qualities, though without much resemblance to Washington, to whom he has been oddly enough compared.

Ossian E. Dodge, an American vocalist, has created some excitement in England, by offering \$10,000 for the Crystal Palace on any day and night soon after the close of the exhibition, for a monster concert.

THE CINCINNATI GAZETTE, of the 26th inst., says: "Joseph G. Lawrence arrived here on Thursday, from Wm. Ford county, Ky., in search of a fugitive slave. On Friday, about twilight, he met his slave on Sixth street, east of Broadway, in company with a colored man. Mr. L. colored his man and turned for assistance, whereupon the two rushed upon him and beat him most severely."

KENTUCKY SILVER MINE.—The *Hopewell Post Boy* of the 24th, says: "We understand from very reliable authority that an extensive and productive mine of silver ore has been discovered on the lands of Mr. Wm. Dora, in Braden county. It is now being worked with great success under the supervision of a Mr. Norton, who shares the proceeds with Mr. D.".

IMPORTANT RAILROAD SENT.—We clip the following from the Lexington Observer of Wednesday last:

We have heretofore noticed the institution of a suit by a portion of the citizens of Mason county in this State, who were opposed to the laying of the tax to aid in the construction of the Maysville and Lexington Railroad, in order to test the constitutionality of the act of the Legislature under which the tax is sought to be imposed. This suit was brought to trial last week in the Mason Chancery Court, Judge Reid, presiding, and was elaborately and learnedly argued by Messrs. H. Taylor and C. A. Marshall, of Mason, and John G. Meixner, of Campbell, in opposition to the constitutional validity of the law, and Messrs. P. T. Hord and Harry Walter, in favor of it. The case was submitted on Saturday evening last.

We learn by a dispatch from a gentleman in Maysville, dated yesterday, that Judge Reid had, during the day, decided in favor of the Railroad company, sustaining the constitutionality of the law in every particular.

The case, we suppose will be taken up to the Court of Appeals, which tribunal has heretofore, (two of the same Judges being now upon the bench) sustained the constitutionality of a similar enactment.

VIRGINIA ELECTION.—Baltimore, October 25.—The returns from Virginia are incomplete. In the first district, Wilson, (Dem.) is elected over Cooper (Whig) second district, J. Meade (Dem.) fifth district, John M. Housh (Dem.) sixth district, John C. Caske (Dem.) ninth district, J. P. Strother (Whig) elected over J. Morton (Whig) fifteenth district, Thompson (Dem.) is elected over Raymond (Whig).

LAW AND ORDER MEETING AT SYRACUSE.—A telegraphic dispatch from Syracuse, dated Oct. 25th, says:

There was a meeting of the friends of law and order held this morning. Soon after its organization, the meeting was disturbed by a band of rioters, among whom were several prominent citizens. After considerable disturbance, the rioters were ejected, and the meeting was allowed to proceed.

Gerritt Smith has issued an address to the Liberty party, in which he advises negroes to resistance even to bloodshed. He calls Fillmore, Webster, &c., murderers, &c.

A. H. Jones, indebted to the late firm of R. & C. Long & Pindell, either by note or account, is extremely anxious to receive forward immediately and pay up. It is well known that one of the late partners of the State in a very short time, which renders a full settlement of the old firm necessary and necessary. We hope some will negotiate this notice.

RAILROADS IN 1811.

"Impossible" is still a word of thundering sound and mighty influence in the ears of some of the most sensible of people. It seems a characteristic quality of human nature to think that each great invention or improvement must of necessity be the last. As an illustration we copy a letter recently communicated to the National Era, written by Robert R. Livingston, (a great man in his day, and at one time Chancellor of the State of New York,) on the subject of a projected railroad. It contains a homily for progress, and deal of amusement besides:

"ALBANY, March 11, 1811.

Sir:—I did not till yesterday receive yours of the 25th of February; where it has loitered on the road I am at a loss to say. I had before read of your very ingenious propositions as to the railway communication. I fear, however, on mature reflection, that they will be liable to serious objection, and ultimately more expensive than a canal. They must be double so as to prevent the danger of two such heavy bodies meeting. The walls on which they are placed must be at least four feet below the surface, and three above, and must be clamped with iron, and even then would hardly sustain so heavy a weight as you propose moving at the rate of four miles an hour on wheels. As to wood, it would not last a week. They must be covered with iron, and that too very thick and strong. The means of stopping these heavy carriages, without great shock, and of preventing them from running upon each other—for there would be many running on the road at once—would be very difficult. In case of accidents, stops, or the necessary stops to take wood and water, &c., many accidents would happen. The carriage for condensing water would be very troublesome. Upon the whole, I fear the expense would be much greater than that of a canal, without being so convenient.

R. R. LIVINGSTON."

The reader of the present day, who sees what a railroad is, and what it accomplishes, may readily laugh at the above suggestions. Yet every discovery of the present day is met with objections equally as absurd; not that men ought to receive everything new as practicable and good, but they ought not to oppose a thing without proper examination, and because it is new, conceive it to be a humbug. Careful and patient examination is necessary in both cases, and where such an examination is made for the purpose of discovering the truth alone, the properly informed man is seldom mistaken in his conclusions. Investigation establishes truth and exposes error.—*Phil. Ledger.*

MARRIED.—On Monday evening, the 23d inst., by Rev. Pres. Young, D. D., Mr. Samuel E. Hays, of this county, to Miss Leona A. Jones, of Lincoln county.

—In the midst of their festivity and enjoyment, the above couple most beautifully remembered the Printer, which fact we regard as a sure token that all will be well with them and theirs during all time to come. May they enjoy a long life of pure, unalloyed happiness, and may their bright anticipations of futurity be realized.

A word to Tobacco users!

THE "Family Grocery" has now in

THE TRIBUNE.

An Irishman entered a small village ale-house somewhere in New Jersey, and looking around him for a minute, addressed the landlady as follows:

"Missus," says he, "show me over a sixpence worth of ale and a sixpence worth of bread."

The bread and ale were set before him. He looks at the one, then at the other, and, as if having satisfied his mind on some point, drinks the ale.

"Missus," says he, "I've taken the ale; what's to pay?"

"Sixpence," was the reply.

"Well," returned he, "there's the sixpenny loaf; that pays for the ale."

"But the loaf wasn't paid for," says she.

"Nix yer cowl," says he, "I didn't eat yer loaf."

The landlady couldn't see through it, but Pat could, and he walked away chuckling.

We give a nip of a very amusing sketch, which we find going the rounds. Miss Shun, an extraordinary "school-marm," is giving an account of her endeavors to teach a "young idee"—a remarkably hard case—how to spell:

"At last," and here the sweet face of Miss Shun brightened, and the glimmer of some intended smile played over it. "I got him clean through the alphabet, and he could point out any letter by name. In two weeks he got through his A's, B's, and one bright Monday morning I put him into L's, D's, Y's, and I had to tell him fifty times the nature of syllables, but his brain was as opaque as a rock."

"Do you love pies?" said I, in order to interest him.

"Yes, ma'am."

"Well, then, 'apple' and 'pie' put together, apple pie, don't they?"

"Yes, ma'am."

"By a like rule, 'la' and 'dy' spell lady—you understand?"

"Yes, ma'am."

"Mince' and 'pie' spell what, then?"

"Mince-pie."

"Right! 'pumpkin' and 'pie,' what?"

"Pumpkin-pie."

"Then what does 'la' and 'dy' spell?"

"'Custard-pie!'" said he, with a yell of delight at his success.

LAWYERS.—There is a great deal more truth than poetry in the following, from the Albany Dutchman:

"I lawyers are the only men who have no faith in experience, and who believe that the older the world, the less it knows about right and wrong. Judges of a day refer to judges of last century, while the judges of last century bow with reverence to those of a century before. Almost all our legal decisions are based upon the decisions of a lot of old noddies, who believed that the earth was a living monster, while the movements of the tide were caused by the monster's breathing. In the Court of Appeals, Lord Chief Justice Rusty saw, who lived when the Devil was supposed to be afraid of a horse-shoe, actually exerts more influence than either justice or common sense. Had physicians been as fearful of new ideas as lawyers are, asses' milk would still have been considered the only antidote for insanity."
